Admission Guide
for 2027 SUES Programs with Shanghai Government Scholarship

As one of China's pioneers in applied innovation education, SUES integrates engineering excellence, managerial insight, and design imagination to turn ideas into real-world impact.

What scholarships do we provide?

1. Shanghai Government Scholarship (SGS-Type A): covers tuition, comprehensive insurance, accommodation and living expenses
2. Shanghai Government Scholarship (SGS-Type B): covers tuition and comprehensive insurance

Requirements for Scholarship

1. Meeting program application eligibility, reaching entry requirements of the university and program
2. Providing satisfying academic and comprehensive performance
3. An applicant who has received any other scholarship offered by the Chinese government or organizations is not entitled to apply for the above scholarships
4. Applicants for the Shanghai Government Scholarship must provide proof of language proficiency (passing HSK-4 or above)

*Annual assessment is required to maintain scholarship in the next academic year.

Programs Available

4 English-taught undergraduate programs, 1 English-taught master's program, 59 Chinese-taught undergraduate programs, and 23 Chinese-taught master's programs

*List for programs is attached below, , subject to the latest announcement from SUES

Applicant Eligibility

Undergraduate programs: 1. Non-Chinese citizen complying with relevant regulations such as the "*Notice of Ministry of Education on Regulating the Work Related to the Admission of International Students by Higher Education Institutions in China*" 2. Aged from 18-25 (those who are between 16 and 18 should submit Guardian's Guarantee Statement) 3. Senior high school diploma (or above) 4. In good health 5.For English-taught undergraduate programs: meeting one of the following requirements: native English speaker, or with IELTS band score no less than 5.5, or with TOEFL(ibt) score no less than 60, or passing English test by SUES For Chinese-taught undergraduate programs: a minimum requirement of HSK 4 certificate with a passing score of 180
Master's programs: 1. Ages 22 to 35 2. In good health 3. None Chinese citizen complying with relevant regulations such as the "*Notice of Ministry of*

Education on Regulating the Work Related to the Admission of International Students by Higher Education Institutions in China"

4. Bachelor or higher education degree

5. For English-taught master's programs: meeting one of the following requirements: native English speaker, or with IELTS band score no less than 6.0, or with TOEFL(ibt) score no less than 70, or passing other internationally recognized English proficiency tests of equivalent level (test certificates and reports required), or passing English test by SUES, or completing an English-taught Bachelor's program

For Chinese-taught master's programs: a minimum requirement of HSK 4 certificate with a passing score of 180 (exempted for graduates of Chinese-taught undergraduate programs in China)

Required Materials

For undergraduate Programs:

1. Senior high school diploma or equivalency diploma, and full transcripts
2. Proof of English proficiency for English-taught programs, or HSK-4 or above certificate for Chinese-taught programs
3. Photocopy of passport with expiry date no earlier than 2028/02/28
4. Recent digital ID photo within 6 months
5. Study Plan in the corresponding language
6. Application Commitment Letter
7. Proof or Commitment of Financial Support
8. Non-criminal Record Certificate or Affirmation
9. Birth Certificate, or other document(s) proving the applicant's family relationship
10. Supplement (if necessary)

For Master's programs:

1. Bachelor's degree certificate, undergraduate diploma, and official transcripts for undergraduate study
2. Proof of English proficiency for English-taught programs, or HSK-4 or above certificate for Chinese-taught programs
3. Study Plan (no less than 500 words) in the corresponding language
4. Photocopy of passport with expiry date no earlier than 2028/02/28
5. Recent digital ID photo within 6 months
6. Two recommendation letters (testimonials) from associate professors or above
7. Application Commitment Letter
8. Proof or Commitment of Financial Support
9. Non-criminal Record Certificate or Affirmation
10. Birth Certificate, or other document(s) proving the applicant's family relationship
11. Portfolio of previous design works (only required for English-taught master's program)
12. Supplement (if necessary)

Fees

Tuition (per academic year)：

CNY 20,000 for non-artistic undergraduate programs

CNY 23,000 for artistic undergraduate programs

CNY 25,000 for graduate programs

*The tuition payment and refunding process shall follow university policy.

Insurance (per academic year): CNY 800

Dorms (per academic year): CNY 1,200 (four-bed room)

How to Apply

Online application：https://admission.sues.edu.cn/

When to Apply

From January 1 to May 20, 2027

Application Procedures

- Online application: Please register and submit your application (including all the required documents) via SUES International Students Service System http://admission.sues.edu.cn/.
- Passing review: Completing review of documents and entrance assessment according to the requirement of the program
- Tracking your application status: Providing supplement materials or information on time as prompted
- Admission and Enrollment： Following the requirements from the Admission Notice and other instructions, completing verification of original documents and report to the university for registration on time. Enrollment time for degree programs is generally in September each year.

SUES Degree Programs Available for 2027 Intake				
School	**Category**	**Program**		**Length** (years)
School of Mechanical and Automotive Engineering	Chinese-taught Bachelor	Mechanical Engineering		4
		Vehicle Engineering		4
		Intelligent Vehicle Engineering		4
		Energy and Power Engineering		4
		Intelligent Manufacturing Engineering		4
		Robotics Engineering		4
	Chinese-taught Master	Mechanical Engineering		3
		Mechanical Engineering (Professional Degree)		3
		Energy and Power (Professional Degree)		3
School of Electronic and Electrical Engineering	English-taught Bachelor	Artificial Intelligence		4
	Chinese-taught Bachelor	Electronic Information category	Artificial Intelligence*	4
			Data Science & Big Data Technology*	4
			Electrical Engineering and Automation*	4
			Electronic Information Engineering*	4
			Automation*	4
			Computer Science and Technology*	4
	Chinese-taught Master	Control Science & Engineering		3
		Intelligent Science and Technology		3
		Electronic Information (Professional Degree)		3
		Integrated Circuit Science and Engineering		3

		Energy and Power (Electrical Engineering Direction) (Professional Degree)		3
School of Management Studies	English-taught Bachelor	International Economics and Trade		4
	Chinese-taught Bachelor	Business Administration category	Business Administration*	4
			Marketing*	4
			Human Resources Management*	4
		Public Administration category	Labor and Social Security*	4
			Public Affairs Administration*	4
		Finance		4
		Engineering Management		4
		Information Management and Information Systems		4
		International Economics and Trade		4
		Tourism Management (Cruise Economy)		4
		Industrial Engineering		4
		Financial Management		4
		Management Science (Oriental Management)		4
		Logistics Management		4
		Senior Care		4
	Chinese-taught Master	Business Administration		2.5
		Public Administration		2.5
School of Chemistry and Chemical Engineering	English-taught Bachelor	Medicinal Chemistry		4
	Chinese-taught Bachelor	Polymer Materials and Engineering		4
		Chemical Engineering and Technology		4
		Pharmaceutical Engineering		4
		Environment Engineering		4
		Medicinal Chemistry		4
		Coating Engineering		4
	Chinese-taught Master	Chemical Engineering & Technology		3
		Pharmacy		3
		Resources and Environment (Professional Degree)		3
		Biological and Pharmaceutical Engineering (Professional Degree)		3
School of Materials Science and Engineering	Chinese-taught Bachelor	Material category	Material Science and Engineering*	4
			Welding Technology and Engineering*	4
		Electronic Packaging Technology		4
		Materials Forming and Control Engineering		4
	Chinese-taught Master	Materials Science & Engineering		3

School of Art and Design	Chinese-taught Bachelor	Advertising	4
		Visual Communication Design	4
		Arts and Technology	4
		Product Design	4
		Environmental Design	4
		Industrial Design	4
		Digital Media Art	4
	English-taught Master	Design (Product Form Design and Practice)	3
	Chinese-taught Master	Design Science	3
		Design (Professional Degree)	3
International Institute of Creative Design	Chinese-taught Bachelor	Digital Media Art (Sino-Korean)**	4
		Product Design (Sino-Korean)**	4
		Visual Communication Design (Sino-Korean)**	4
School of Textiles and Fashion	English-taught Bachelor	Textile Engineering	4
	Chinese-taught Bachelor	Fashion Design and Engineering	4
		Textile Engineering	4
		Performance	4
		Clothing and Fashion Design	4
		Nonwoven Materials and Engineering	4
	Chinese-taught Master	Textile Science & Engineering	3
School of Urban Railway Transportation	Chinese-taught Bachelor	Vehicle Engineering (Urban Railway Transportation)	4
		Railway Traffic Signal and Control	4
		Railway Engineering	4
		Transportation	4
	Chinese-taught Master	Transportation Engineering	3
		Traffic & Transportation (Professional Degree)	3
School of Foreign Languages	Chinese-taught Bachelor	Translation	4
School of Mathematics, Physics & Statistics	Chinese-taught Bachelor	Data Computing and Application	4
		Optoelectronic Information Science and Engineering	4
	Chinese-taught Master	Statistics	3
		Optical Engineering	3
		Applied Statistics (Professional Degree)	2

Note：

1. The four major categories marked with an asterisk (*), totaling 13 programs, implement broad-based enrollment. After enrollment, students will enter the corresponding programs for study according to the assessment requirements of their respective schools.

2. For the three Sino-Korean programs marked with two asterisks (**)，students must pass the Korean Proficiency Test Level-2 or the Korean language examination of the partner institution before they can complete their double degree studies. Students shall afford their own tuition fees and other expenses during their study at the partner institutions.
